## Patch Championship Manager 99 00

Feb 16, 2018 - Game update (patch) to Championship Manager: Season 03/04, a(n) sports.. CM 99/00 - Downloads Any downloads that are available for this I'm trying to reinstall one of the older games for a change as I don't fancy getting stuck into another FM09 game with FM10 coming.. I'm really keen to play CM01/02 this weekend and am desperate for some help!! When I then go on to boot the game I get- CM01/02 exe has encountered a problem and needs to close.. Once I cross that off, an information box appears saying 'Ensure that you have Service Pack 3 installed on your system as CM01/02 requires Direct X' I have made sure that the most recent Direct X is installed and as my machine is made within the last four years, it should be able to cope with CM01/02 without much problem.. After installing either game (CM99/00 or CM01/02) the application won't be boot as a result of a problem with the.. Sorry guys, I was a bit vague posting the original message Here's the problem- It installs as normal but as it completes the installation process it brings up the Readme file.. exe file After installation it says something about ensuring Direct X is installed (it is) so I don't know what the problem is? Is this a frequent problem when running the older games on newer machines?Isn't this down to the fact the games were pre modern versions of Windows (dos based) or is that the older versions such as CM2? I remeber trying to install some of the older games for nostalgic purposes only for them not to work and only thing I could put it down to was that they weren't XP (or whatever was before that) compatible I could of course be completely wrong;-).
